#### ***Meet Jack***

This is Jack. He's an odd little boy that just got an empty box for his birthday. He may *look* happy, but he's a *little* disappointed. Now he'll have to put a few things in the box.

Jack would really like...

- Roller blades
- Magic tricks
- Anything Pokemon
- A motorized Lego set

You can get all this (and more) at an online toy store. Two very popular ones are [toysrus.com](http://toysrus.com) and [eToys](http://eToys.com).

Sports is a large global business.

Billions of dollars are spent at sporting events, on sports teams, on sports events, as well as on sports-related equipment and apparel. This guide is devoted to those sports that are the largest in terms of monies at the professional level and as a result, not every sport is included. The primary focus is on the professional sports industry in the United States although there are a few instances in which the international aspects of the industry are mentioned. Because of the focus on professional sports, the Olympics and amateur events are not included.

- Cricket
- Soccer
- Volleyball
- Baseball
- Basketball
- Boxing
- Golf Badminton
- Table tennis

Using inline(span,img)

**What is a healthy diet?**

Eating a healthy diet is not about strict limitations, staying unrealistically thin, or depriving yourself of the foods you love. Rather, it's about feeling great, having more energy, improving your health, and boosting your mood.

While some extreme diets may suggest otherwise, we all need a balance of protein, fat, carbohydrates, fiber, vitamins, and minerals in our diets to sustain a healthy body. You don't need to eliminate certain categories of food from your diet, but rather select the healthiest options from each category. Using span for following, Fruit / vegetables / legumes (e.g. lentils and beans) nuts and whole grains (e.g. unprocessed maize millet oats wheat and brown rice)

Quartz is our most common mineral. Quartz is made of the two most abundant chemical elements on Earth: oxygen and silicon. Atoms of oxygen and silicon join together as tetrahedrons (three sided pyramids). These stack together to build crystals. Billions of tetrahedrons are needed to build even a small crystal.

#### Quartz

-  Quartzite
-  Amethyst
-  Rose quartz
-  Citrine
-  Agate
-  Smoky quartz

Review: Basketball Dog (2018)

4 out of 5 stars

From director **Vicki Fleming** comes the heartwarming tale of a boy named Pete (Trent Dugson) and his dog Rover (voiced by Brinson Lumlebrunt). You may think a boy and his dog learning the true value of friendship sounds familiar, but a big twist sets this flick apart: Rover plays basketball, and he's doggone good at it.

This movie has everything you could ask for:

- Basketball
- A dog
- Nail-biting suspense

While it may not have been necessary to include all 150 minutes of Rover's championship game in real time, Basketball Dog will keep your interest for the entirety of its 4-hour runtime, and the end will have any dog lover in tears. If you love basketball or sports pets, this is the movie for you.

Find the full cast listing at the [Basketball Dog](#) website.
